THE ORIGINAL AUTO CRANE.
THE ONLY AUTO CRANE.

In 1958, we put a small crane in a car trunk, headed out to the oil fields, and an industry was born. Today, more than 45 years later, Auto Crane® equipment remains universally recognized for its high standard of innovation, quality, safety, and reliability.

We’ve maintained our leadership role by focusing on what we do best: designing and manufacturing the industry’s finest vehicle-mounted cranes, crane bodies, hydraulic air compressors, and accessories — all backed by the industry’s original two-year warranty.

Our extensive line of electric and hydraulic telescoping cranes offers lifting capacities from 2,000 to 10,000 lbs. So take a good look at the cranes that started it all. Then call Auto Crane and let us integrate the ideal crane-and-body package for you.

Innovation, engineering excellence, and dedicated customer support. Auto Crane has it all.

STANDARD TWO-YEAR WARRANTY
Auto Crane Company warrants each new Auto Crane product to be free from defects in materials and workmanship for a period of two years from date of purchase. For details, visit autocrane.com.

Auto Crane remote-controlled cranes are not intended to be used for the lifting or moving of persons. Copy of warranty statement packed with each product.
10,006H SERIES

60,000 ft. lbs. (8.3 ton) Crane Rating

APPLICATIONS
The 10,006H hydraulic crane is designed to meet your requirements for applications such as:
- Mining
- Field service and installation
- Gas distribution service and installation
- Highway sign and roadside park maintenance
- Monument/burial vault companies
- Pipeline companies
- Wastewater treatment
- Workboats and barges

SPECIFICATIONS
- WEIGHT: 2,335 lbs. (1,059 kgs)
- LENGTH: 14’ 8” (4.47 m)
- WIDTH: 2’ 1 1/2” (0.62 m)
- HEIGHT: 3’ 0” (0.91 m) from base of crane
- BASE PLATE: 20 3/4” x 20 1/2” (52.7 cm x 52.1 cm)
- HYDRAULIC SYSTEM REQUIREMENTS: 15 gallons (56.8 L) per minute at 3,400 psi (234.4 bar)

STANDARD FEATURES
- 10,000 ft. lbs. (4,536 kgs) capacity
- Crane rating of 60,000 ft. lbs. (8.3 tons); maximum lifting capacity of 10,000 lbs. (4,536 kgs) at 6 ft. (1.83 m)
- Power booms extend from 12’ 4” (3.76 m) to 25’ 4” (7.72 m)
- Hydraulic winch with 60 ft./min. (18.3 m/min.)
- Single line speed
- Automatic overload protection system
- Equipped with anti-two block preventer
- Automatic overload protection system
- Full power extension to 20 ft. (6 m)
- Meets OSHA 1910.180 requirements
- Meets ANSI B30.5 safety standards
- FM control and hardwire models available
- Two-speed rotation control mechanism available on FM control

8406H SERIES

50,000 ft. lbs. (6.8 ton) Crane Rating

APPLICATIONS
The 8406H hydraulic crane is designed to meet your requirements for applications such as:
- Field service and installation
- Gas distribution service and installation
- Mining
- Monument/burial vault companies
- Pipeline companies
- Railroad signal departments and track maintenance
- Wastewater treatment

SPECIFICATIONS
- WEIGHT: 1,680 lbs. (762 kgs)
- LENGTH: 12’ 8” (3.85 m)
- WIDTH: 1’ 11 3/4” (0.59 m)
- HEIGHT: 2’ 1/2” (0.62 m)
- BASE PLATE: 16 3/4” x 16 3/4” (52.7 cm x 52.7 cm)
- HYDRAULIC SYSTEM REQUIREMENTS: 13 gallons (49.2 L) per minute at 2,750 psi (189.6 bar)

STANDARD FEATURES
- Full power extension to 20 ft. (6 m)
- 60 ft./min. (18.28 m/min) single line speed
- 96 ft. (29 m) of 3/8” (10 mm) aircraft quality cable
- 370° power rotation
- Automatic overload protection system
- Equipped with anti-two block preventer
- Meets OSHA 1910.180 requirements
- Meets ANSI B30.5 safety standards
- FM control and hardwire models available
- Two-speed rotation control mechanism available on FM control
**APPLICATIONS**
The 6406H hydraulic crane is designed to meet your requirements for applications such as:
- Field service and installation
- Gas distribution service and installation
- Highway sign and roadside park maintenance
- Mining
- Monument/burial vault companies
- Pipeline companies
- Railroad signal departments and track maintenance
- Wastewater treatment
- Workboats and barges

**SPECIFICATIONS**
- **WEIGHT**: 1,650 lbs. (748 kgs)
- **LENGTH**: 12' 8" (3.85 m)
- **WIDTH**: 1' 11 3/4" (0.59 m)
- **HEIGHT**: 2' 11" (0.89 m)
- **BASE PLATE**: 16 3/4" x 16 3/4" (43 cm x 43 cm)
- **MIN. CHASSIS REQUIREMENTS**: 14,500 lbs. (6,677 kgs) GVWR

**STANDARD FEATURES**
- 3,800 lbs. (1,723 kgs) capacity at 10 ft. (3 m)
- Full power extension to 20 ft. (6 m)
- 55 ft./min. (16.8 m/min.) single line speed
- 95 ft. (29 m) of 3/8" (10 mm) aircraft quality cable
- Automatic overload protection standard
- 350º power rotation
- Equipped with anti-two block preventer
- Meets OSHA 1910.180 requirements
- Meets ANSI B30.5 safety standards
- FM control and hardwire models available
- Two-speed rotation control mechanism available on FM control

**6406H SERIES**
- **REACH**: 38,000 ft. lbs. (5.7 ton) Crane Rating

**6006EH SERIES**
- **REACH**: 36,000 ft. lbs. (5.5 ton) Crane Rating

**APPLICATIONS**
The 6006EH hydraulic crane is designed to meet your requirements for applications such as:
- Field service and installation
- Gas distribution service and installation
- Highway sign and roadside park maintenance
- Mining
- Monument/burial vault companies
- Pipeline companies
- Railroad signal departments and track maintenance
- Wastewater treatment
- Workboats and barges

**SPECIFICATIONS**
- **WEIGHT**: 1,695 lbs. (769 kgs)
- **LENGTH**: 13' 1" (3.98 m)
- **WIDTH**: 2' 11 3/8" (0.90 m)
- **HEIGHT**: 2' 9 3/4" (0.55 m)
- **BASE PLATE**: 16 3/4" x 16 3/4" (43 cm x 43 cm)
- **MIN. CHASSIS REQUIREMENTS**: 14,500 lbs. (6,677 kgs) GVWR

**HYDRAULIC SYSTEM REQUIREMENTS**
- 8 gallons (30 L)

**STANDARD FEATURES**
- 36,000 ft. lbs. (5.0 tm) Crane Rating
- Automatic overload protection standard
- Equipped with anti-two block preventer
- 95 ft. (28.95 m) of 3/8" (9.52 mm) aircraft quality cable
- Meets ANSI B30.5 safety standards
- FM control and hardwire models available
- Electric requirements are 24 volt DC supplied by the vehicle's 12 volt battery and auxiliary 12 volt battery (auxiliary battery not included)
- 95 ft. (29.95 m) of 3/8" (8.52 mm) aircraft quality cable

- 10 3/4” (27 cm) from base of crane
- 12’ 8” (3.86 m)
- 8 gallons (30 L)

**STANDARD FEATURES**

- Crane rating of 25,000 ft. lbs. (3.5 tm); maximum lifting capacity of 5,000 lbs. (2,268 kgs) at 5 ft. (1.5 m)
- Power boom extends from 10 ft. (3 m) to 16 ft. (4.8 m), with manual extension to 20 ft. (6.1 m)
- 370º power rotation with positive locking
- Electric requirements are 24 volt DC supplied by the vehicle’s 12 volt battery and auxiliary 12 volt battery (auxiliary battery not included)
- Automatic overload protection system
- Bail type anti-two block to minimize crown
- 24 ft. (7.3 m) remote control pendant
- 6” to 75” hydraulically powered boom elevation
- 2.5 hp 24V DC electric hoist motor
- 80 ft. (24.3 m) of 5/16” (8 mm) aircraft quality cable
- Meets OSHA 1910.180 requirements
- Meets ANSI B30.5 safety standards

### APPLICATIONS

The 3203 electric crane is designed to meet your requirements for applications such as:

- Cable TV service and installation
- Drilling contractors
- Gas distribution service and installation
- Highway sign and roadside park maintenance
- Monument/burial vault companies
- Railroad signal departments and track maintenance
- Wastewater treatment

### SPECIFICATIONS

**WEIGHT**
- 680 lbs. (308 kgs) PRX Model
- 666 lbs. (275 kgs) PR Model

**LENGTH**
- 9’ 2” (2.75 m)

**WIDTH**
- 1’ 7 1/2” (0.48 m)

**HEIGHT**
- 2’ (0.61 m)

**BASE PLATE**
- 14” x 16” (36 cm x 41 cm)

**MIN. CHASSIS REQUIREMENTS**
- 8,800 lbs. (3,993 kgs) GVWR
- Truck must be equipped with jackleg or outrigger assembly extending 3’ 9” (1.14 m) from centerline of truck, minimum 60 amp alternator, minimum 100 minute reserve capacity H.D. maintenance type battery with 500 cold cranking amp capacity.

**STANDARD FEATURES**
- 3200 lbs. (1,452 kgs) capacity
- Crane rating of 10,000 ft. lbs. (1.5 tm); maximum lifting capacity of 3,200 lbs. (1,452 kgs) at 3 ft. (0.9 m)
- PRX model power boom extends from 7 ft. (2.1 m) to 11 ft. (3.4 m); manual boom extends to 15 ft. (4.6 m)
- FM control and tethered remote-control pendant available
- 30 ft/min. (9.17 m/min) single line speed
- Hoist with self-locking brake to prevent slippage
- Continuous power rotation
- Automatic overload protection system
- Swivel block with hook with latch
- 12 volt DC, series wound, 1.9 hp hoist motor
- 62 ft. (18.9 m) of 7/32” (6 mm) aircraft-quality cable
- Meets OSHA 1910.180 requirements
- Meets ANSI B30.5 safety standards

### APPLICATIONS

The 2003 electric crane is designed to meet your requirements for applications such as:

- Cable TV service and installation
- Gas distribution service and installation
- Highway sign and roadside park maintenance
- Mining
- Pipeline companies
- Railroad signal departments and track maintenance
- Wastewater treatment

### SPECIFICATIONS

**WEIGHT**
- 360 lbs. (163 kgs) for 9’ boom

**LENGTH**
- 6’ 2” (1.88 m) for 9’ boom

**WIDTH**
- 1’ 7” (0.48 m)

**HEIGHT**
- 1’ 9” (0.53 m)

**BASE PLATE**
- 16” x 18” (41 cm x 45 cm)

**MIN. CHASSIS REQUIREMENTS**
- Minimum 70 amp alternator, minimum 130 minute reserve capacity H.D. maintenance type battery with 625 cold cranking amp capacity; truck must be equipped with jackleg

**STANDARD FEATURES**
- 2,000 lbs. (907 kgs) capacity
- Crane rating of 6,000 ft. lbs. (0.8 tm); maximum lifting capacity of 2,000 lbs. (907 kgs) at 3 ft. (0.9 m)
- Manual boom extends from 5 ft. (1.5 m) to 9 ft. (2.7 m)
- 360° continuous manual rotation with manual brake
- 22 ft. (6.71 m) of high current battery cable
- Optional automatic overload protection system
- 15 ft. (4.5 m) removable remote control pendant
- 12 volt DC, series wound, 1.9 hp hoist motor
- 50 ft. (15.2 m) 1/4” (6 mm) aircraft quality cable
- Meets OSHA 1910.180 requirements
- Meets ANSI B30.5 safety standards

ECONO TON II/IIR

APPLICATIONS
The Econo T on II & IIR electric cranes are designed to meet your requirements for applications such as:
- Cable TV service and installation
- Gas distribution service and installation
- Mining
- Pipeline companies
- Railroad signal departments
- Wastewater treatment

SPECIFICATIONS

WEIGHT
- 221 lbs. (100 kgs) for 5’ 2” boom
- 249 lbs. (113 kgs) for 7’ 1” boom

LENGTH
- 3’ 3”-6’ 2” (0.99 m-1.57 m) for 5’ 2” boom;
- 4’ 2 1/2”-7 1/2” (1.28 m-2.16 m) for 7’ 1” boom

WIDTH
- 11” (2.8 m)

HEIGHT
- 5’ 3” (1.60 m)* for 5’ 2” boom;
- 4’ 2 1/2”-7’ 1” (1.28 m-2.16 m)* for 7’ 1” boom

BASE PLATE
- 12” x 12” (30 cm x 30 cm)

Min. 50 amp alternator, minimum 100 minute reserve capacity
H.D. maintenance type battery with 500 cold cranking amp capacity; truck must be equipped with jackleg extending 3’ 3” (1 m) from centerline of truck.

STANDARD FEATURES

2,000 lbs. (907 kgs) capacity
Cable TV service and installation
Gas distribution service and installation
Mining
Pipeline companies
Railroad signal departments
Wastewater treatment

Our truck-mounted crane service bodies uphold the Auto Crane tradition of craftsmanship and design ingenuity. With capacities ranging from 16,000 to 60,000 ft. lbs., the Auto Crane line of service bodies is designed to meet the needs of virtually every heavy-equipment industry.

Each Auto Crane service body is equipped with a long list of standard features designed to provide years of trouble-free performance, including internal stainless steel hinges, double-paneled galvanneal doors, weather-tight door seals, and our patented, one-piece side design.* And, unlike other service bodies on the market, Auto Crane service bodies are designed to be fully stable throughout the lifting radius of the crane.

You may also customize your service body with a variety of options, including a Master Lock System, compartment rope lights, or heavy-duty bumpers.

*U.S. Patent No. 6,941,654.
